

Hawai'i Climate Conference 2019

**HĀ O KE KAI**  
**HAWAII'S RESPONSE TO CLIMATE CHANGE**

**Monday, January 14, 2019**  
**8:30 AM – 4:30 PM**

**East-West Center – Imin Conference Center**

Hā o ke kai literally means “breath of the sea,” and more poetically, that we are one with the ocean and go where it takes us - in this case, towards pioneering a response to climate change challenges that lie before us in Hawai'i. This conference highlights a broad climate change initiative of the State of Hawai'i and its many partners and identifies what actions we must collectively pursue to mitigate the potentially catastrophic effects of global warming

The keynote will set the tone; three panels will grapple with questions and challenges of how to implement transformative climate change mitigation and adaptation actions. Partners and public alike will get an inside view of how discussions lead to action, and will provide their comments and questions for panelists to consider.

Hā o ke kai--let's use this conference to innovate together!

**PROGRAM**

0800-0830	<b>Registration and Coffee</b>
0830-0840	<b>Oli and Mele</b> Dr. Jon Osorio, Dean, Hawai'i inuiākea School of Hawaiian Knowledge, University of Hawaii, Mānoa
0845-0900	<b>Governor's Welcome</b> Governor David Ige Introduction by Richard Vuylsteke, President, East-West Center
0900-0910	<b>Introduction to the program</b> MCs: Dr. Victoria Keener, Pacific RISA/EWC and Anukriti Hittle, DLNR
0910-0925	<b>State of the Commission: Response to Climate Change</b> Climate Change Commission Co-chairs Suzanne Case, DLNR, and Leo Asuncion, Office of Planning, update on Climate Commission initiatives
0925-0945	<b>National Climate Assessment Report 2018</b> Dr. Victoria Keener, Principal, Chapter on Hawai'i and the Pacific
