

# Climate Mitigation and Adaptation Legislation considered by the 2021 Legislature

Presented by Rep. Nicole Lowen. Rep. David Tarnas,  
and Sen. Mike Gabbard

# Priority policy areas:

Energy

Transportation

Sea Level Rise Adaptation

Carbon sequestration

Equity/environmental justice

# Energy

Energy efficiency for state facilities (HB550)

Appliance efficiency standards (HB116)

RPS “fix,” Gas RPS (HB1143/HB111)

Clean Energy & Energy Efficiency revolving loan funds (SB 932/HB558)

Carbon Pricing (multiple bills)

Solar on new residential single-family homes (HB 860)

# Transportation: EVs, alternative fuels, multi-modal transportation

State fleets transition to zero-emissions vehicles, establish goals (HB552, SB920)

EV charging station rebate program funding (HB1142)

Aviation fuel task force, grants (HB683, HB327, SB987)

Measurement standards for hydrogen fuels (SB934/HB113)

EV charge R&M and increased # of required chargers in places of public accommodation (SB756/HB803)

rental car fleet transition (SB768: task force, goals; HB1141)

EV ready new construction (HB1140/SB773)

Ban on sale of ICEs (passenger vehicles, mopeds) (HB393)

Complete Streets policy (SB 1401, SB1402)

commuter benefits (SB 524)

# Climate Adaptation

SLR disclosure for real estate transactions (SB 474; multiple other bills)

Critical infrastructure assessment, planning, impact mitigation (HB 243; multiple bills)

Nature based solutions (HCR36/SCR159)

Managed retreat, coastal zone management (HB1373)

Small-scale beach restoration projects (SB 367)

# Other Climate-related legislation

Carbon positive farming incentives (SB493)

Administrative re-org to support climate action  
(HB1149/HB1318)

Declaring a climate emergency (SCR 44)
